

St Martin:

results of a shelling excursion in November 2015

POLYPLACOPHORA

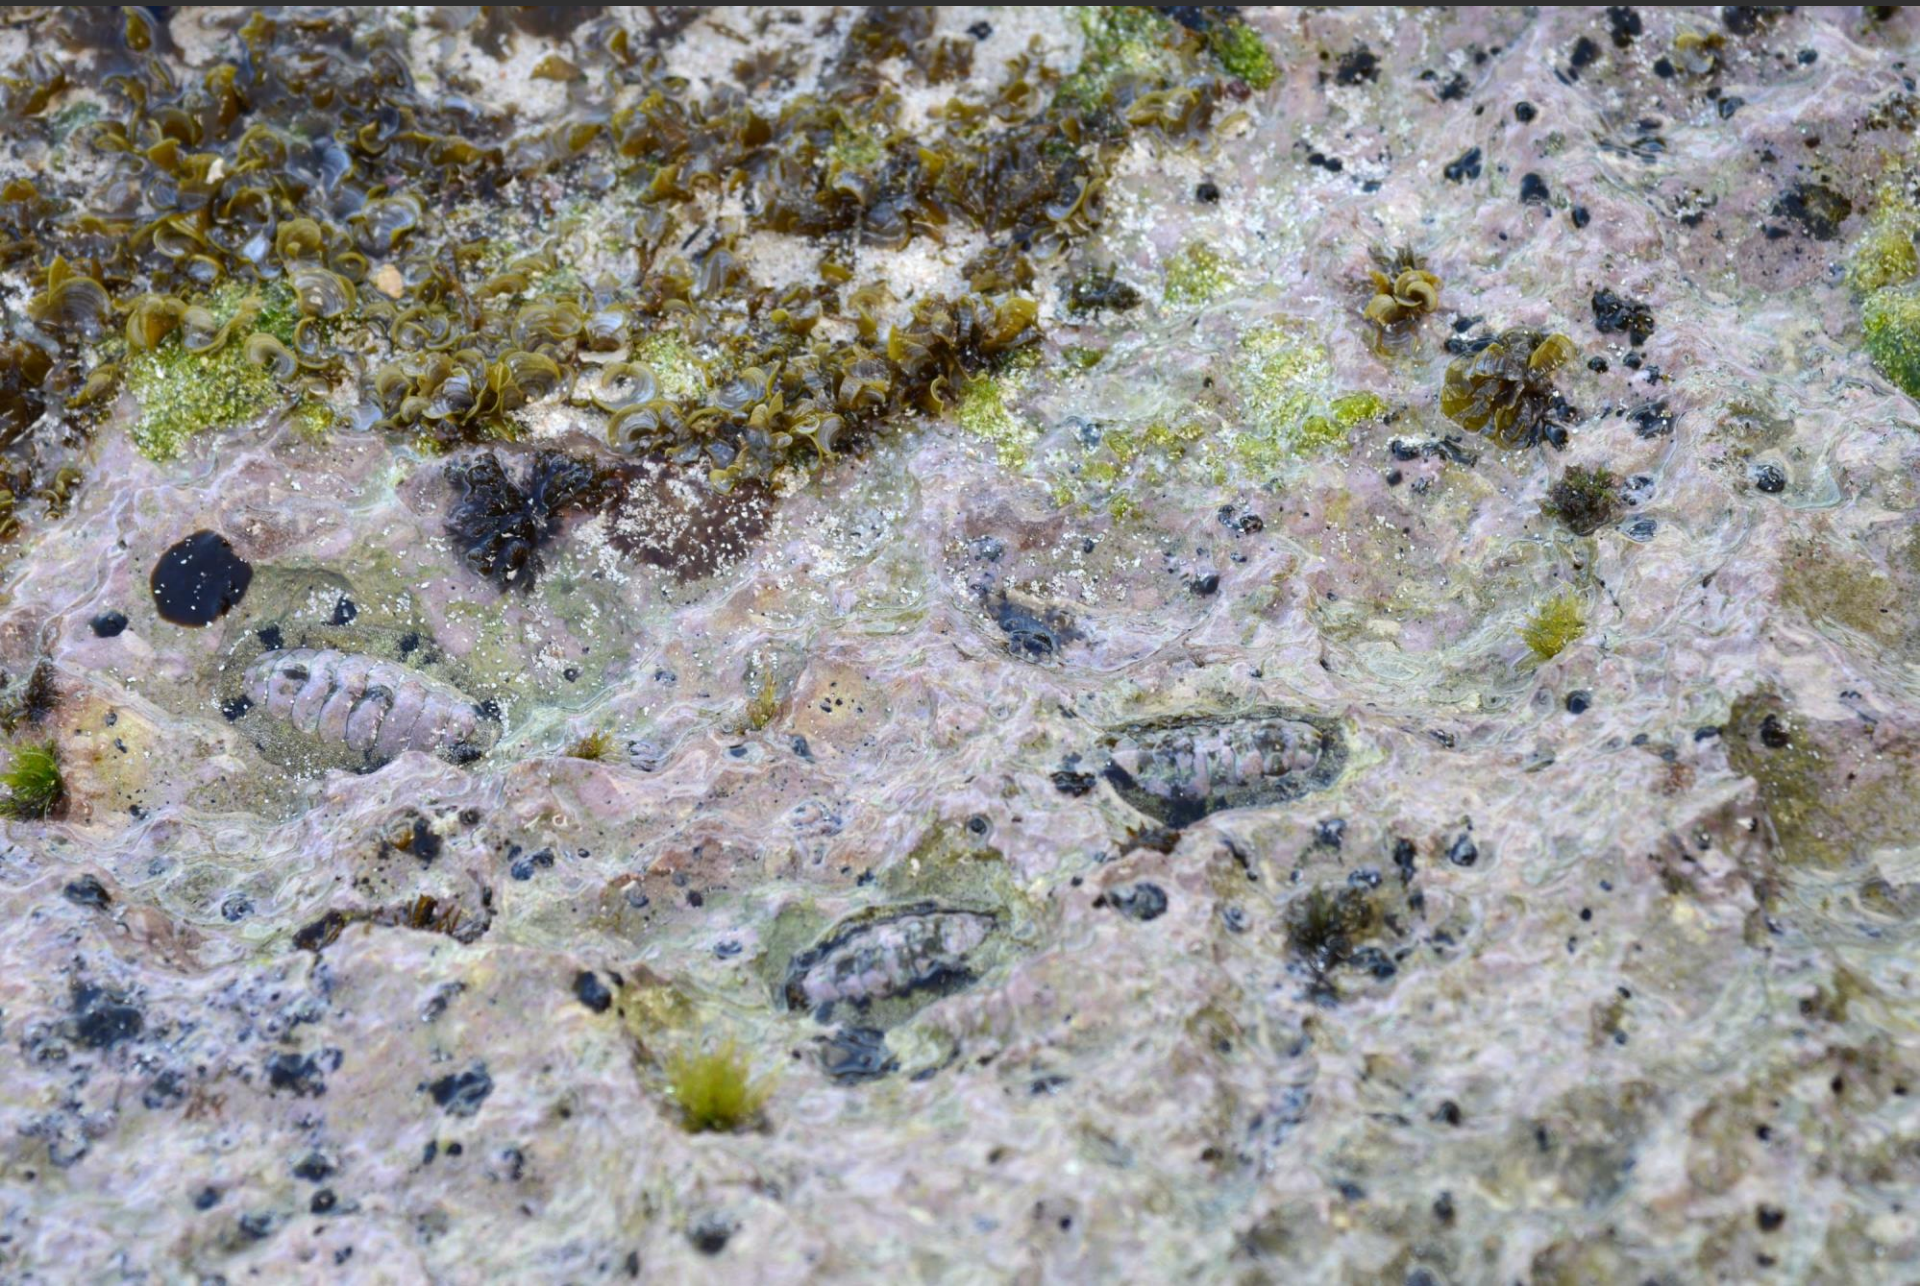

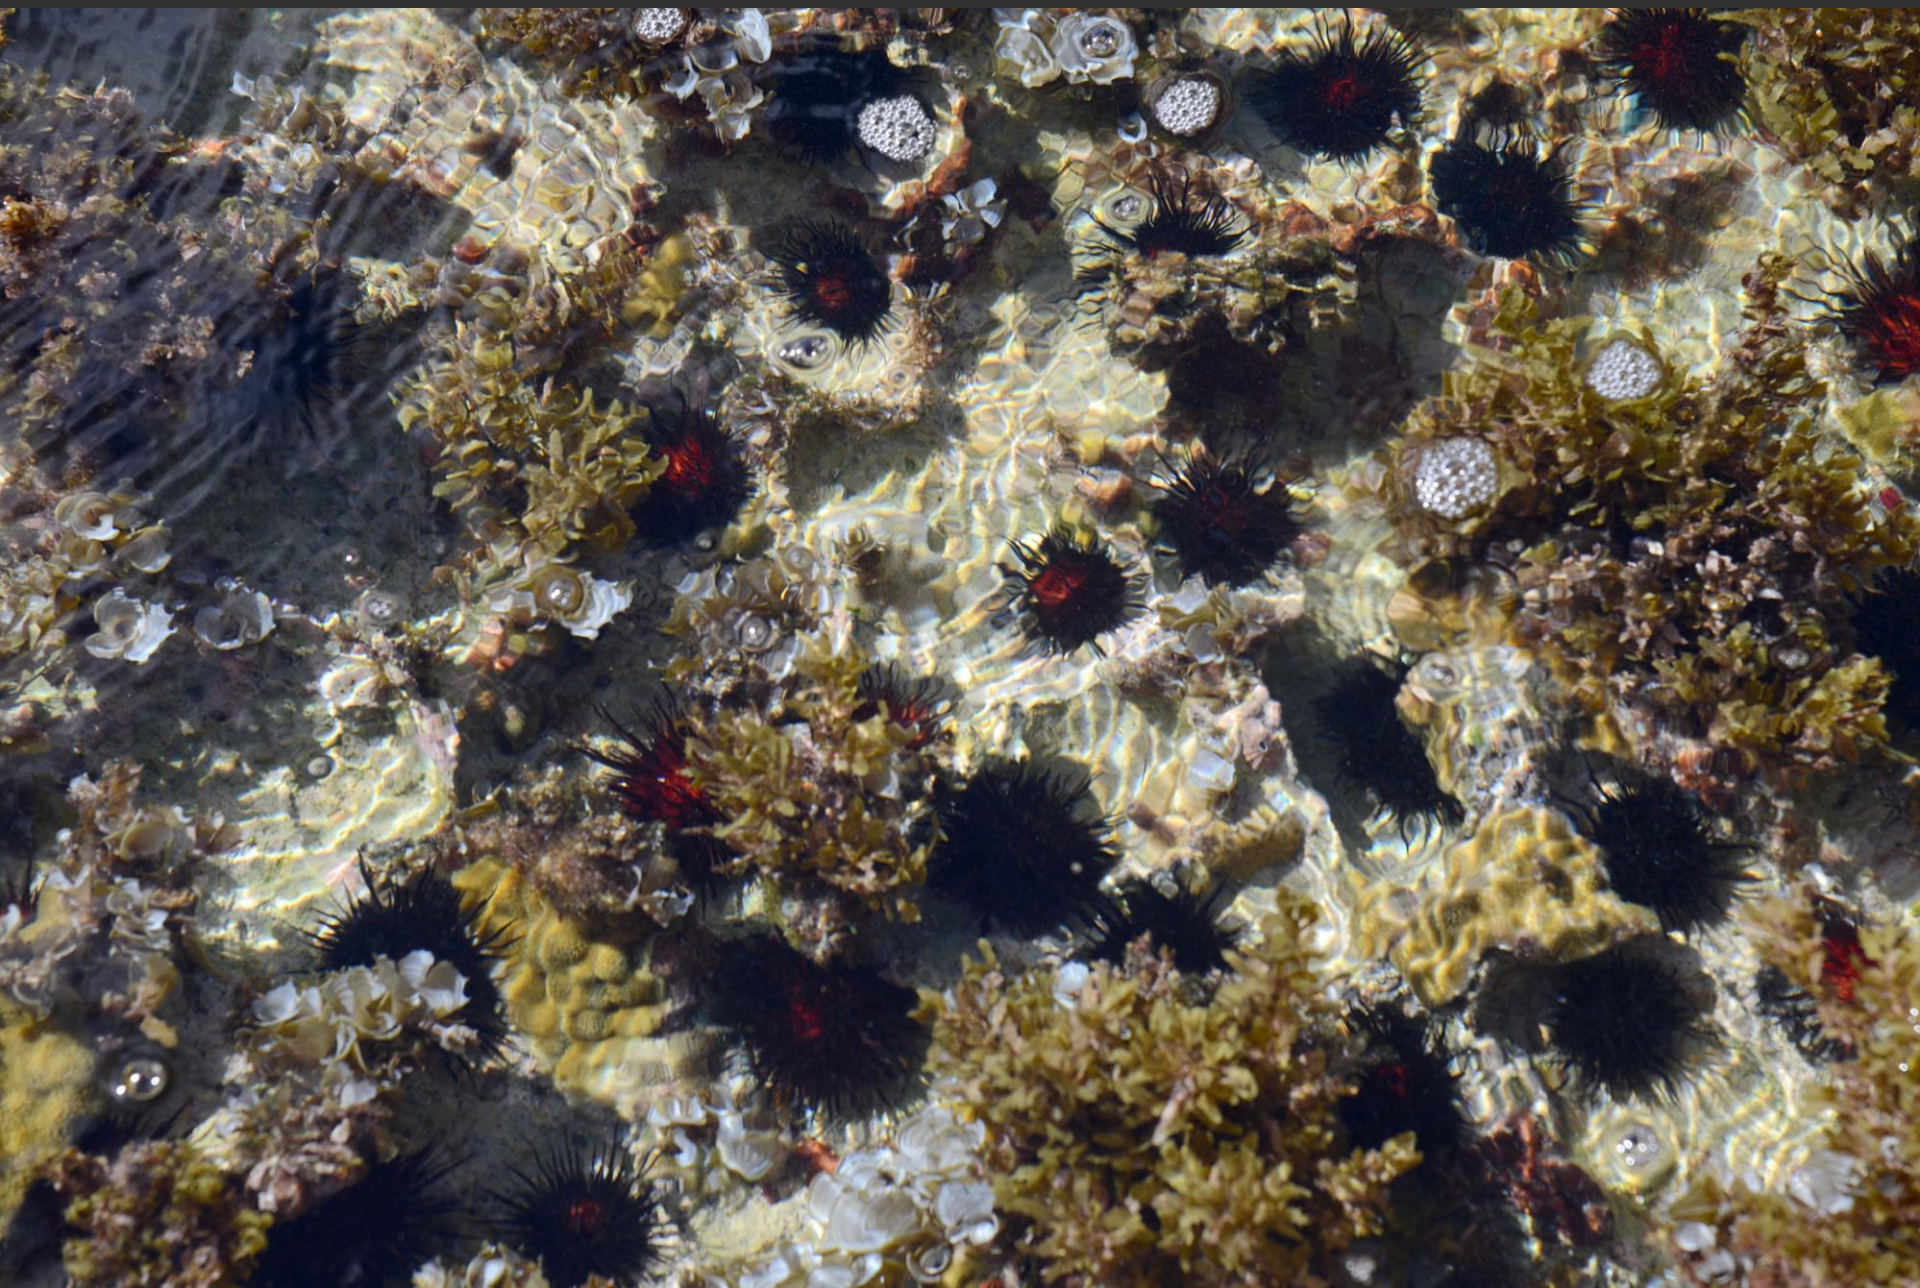

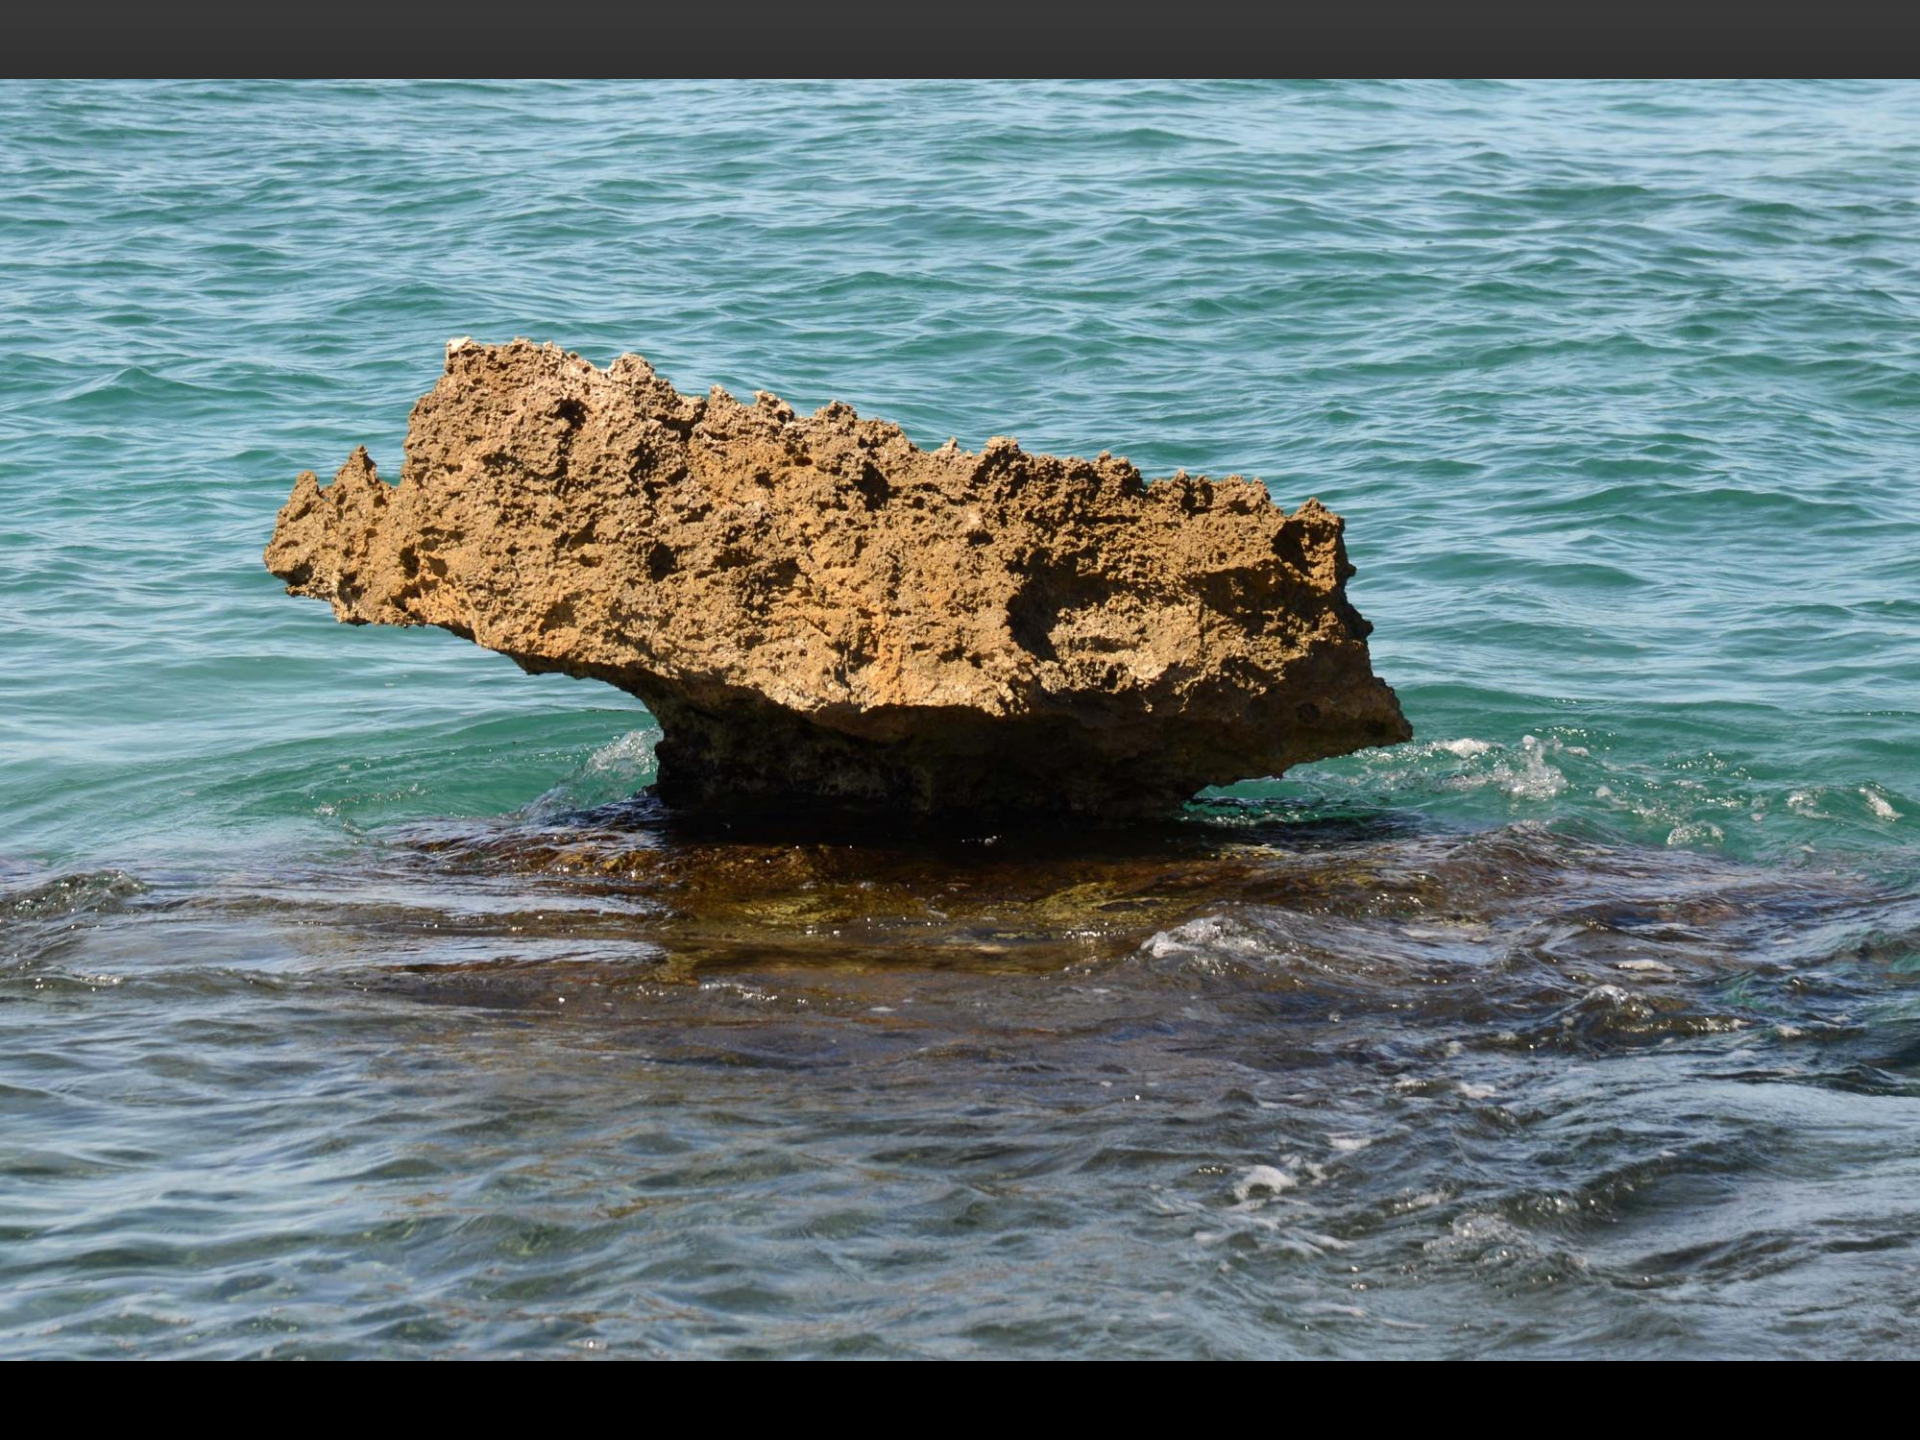

***Chiton viridis* Spengler, 1797**

Maho Beach, Philipsburg, St Martin

under rocks – 36.46 mm

***Chiton squamosus* Linnaeus, 1764**

Maho Beach, Philipsburg, St Martin

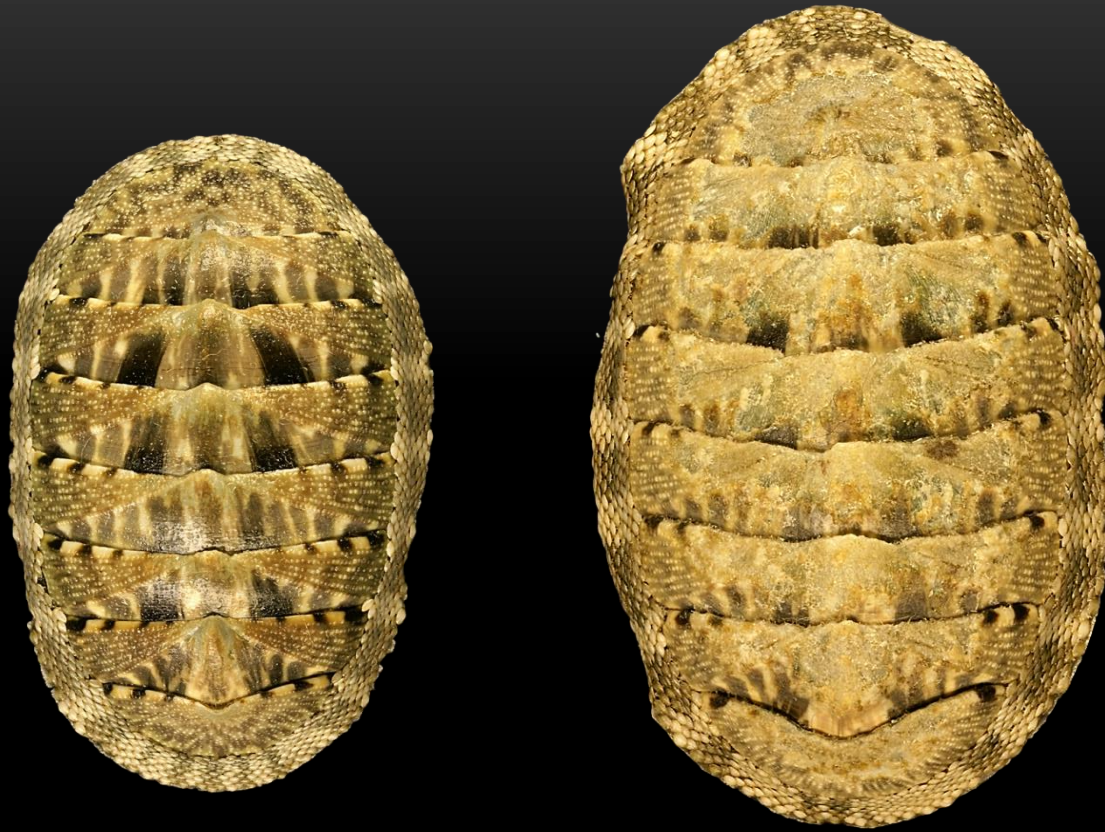

under rocks – 3 November 2015 – 48.17 mm

***Chiton squamosus* Linnaeus, 1764**

Cay Bay, St Martin

under rocks – 5 November 2015 – 46.50 mm

***Chiton squamosus* Linnaeus, 1764**

Shell Island, Coralita Bay, St Martin

under rocks – 1 November 2015 – L: 39.5 mm; R: 48.12 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 15.78 mm

***Chiton marmoratus* Gmelin, 1791**

Little Bay, St Marten

under rocks – 5 November 2015 – 39.49 m

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 42.21 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 61.62 mm

***Chiton marmoratus* Gmelin, 1791**

Shell Island, Coralita Bay, St Martin

under rocks – 1 November 2015 – 28.12 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 31.81 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 42.18 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 44.94 mm

***Chiton marmoratus* Gmelin, 1791**

Pinel Island, St Martin

under rocks – 6 November 2015 – 53.43 mm

***Chiton tuberculatus* Linnaeus, 1758**

Cay Bay, St Martin

under rocks – 5 November 2015 – 25.44 mm

***Chiton tuberculatus* Linnaeus, 1758**

Cay Bay, St Martin

under rocks – 5 November 2015 – 32.24 mm

***Chiton tuberculatus* Linnaeus, 1758**

Cay Bay, St Martin

under rocks – 5 November 2015 – 36.16 mm

***Chiton tuberculatus* Linnaeus, 1758**

Cay Bay, St Martin

under rocks – 5 November 2015 – 39.35 mm

***Chiton tuberculatus* Linnaeus, 1758**

Cay Bay, St Martin

under rocks – 5 November 2015 – 42.43 mm

***Chiton tuberculatus* Linnaeus, 1758**

Pinel Island, St Martin

under rocks – 6 November 2015 – 44.04 mm

***Chiton tuberculatus* Linnaeus, 1758**

Pinel Island, St Martin

under rocks – 6 November 2015 – 46.80 mm

***Chiton tuberculatus* Linnaeus, 1758**

Isles des Saintes, Guadeloupe

dived – March 1972 – 33.17 mm

***Chiton tuberculatus* Linnaeus, 1758**

Isles des Saintes, Guadeloupe

dived – March 1972 – 33.28 mm

***Chiton tuberculatus* Linnaeus, 1758**

Isles des Saintes, Guadeloupe

dived – March 1972 – 49.78 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Galion Beach, Orient Bay, St Martin

in rock crevices, in the surf zone – 1 November 2015 – 31.17 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Galion Beach, Orient Bay, St Martin

in rock crevices, in the surf zone – 1 November 2015 – 40.22 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Galion Beach, Orient Bay, St Martin

in rock crevices, in the surf zone – 1 November 2015 – 42.72 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Galion Beach, Orient Bay, St Martin

in rock crevices, in the surf zone – 1 November 2015 – 48.31 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Galion Beach, Orient Bay, St Martin

in rock crevices, in the surf zone – 1 November 2015 – 51.72 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Shell Island, Coralita Bay, St Martin

on rocks – 1 November 2015 – 55.23 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Shell Island, Coralita Bay, St Martin

on rocks – 1 November 2015 – 59.81 mm

***Acanthopleura granulata* (Gmelin, 1791)**

Shell Island, Coralita Bay, St Martin

on rocks – 1 November 2015 – 53.92 mm
